-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1792

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-7 and 16, 19, 21-25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nelson (U. S. Pat. No. 4,985,106) in view of either Herreman et al. (U. S. Pat. No. 6,512,831).

Re claims 1, 16 and 25, note that Nelson is cited disclosing a dishwasher comprising:

a washtub (see fig. 7) comprising a rear wall, bottom wall, and sidewalls, with the walls collectively forming an open-faced wash chamber;

a support frame having a front-facing opening intermediate a support frame upper portion and a support frame lower portion, and the wash tub is mounted to the support frame such that the open-faced wash chamber is in communication with the front-facing opening, and a motor cavity with a front-facing motor cavity opening is defined intermediate the wash tub bottom wall and the support frame lower portion; and

an insulation curtain (81) extending along at least one side of the support frame and terminating at an edge of the motor cavity (75) that differs from the claims only in the recitation of the a sound attenuator comprising a sound barrier element and a sound absorbing element, the sound attenuator substantially closing the motor cavity opening and extending along a bottom portion of the motor cavity to attenuate the sound emanated from the motor cavity, the sound attenuator having at least one side portion

Art Unit: 1792

extending along at least a portion of motor cavity sides, beyond the insulation curtain edge to overlap the insulation curtain to attenuate sound emanated from the motor cavity below the insulation curtain edge. The patent to Herreman is cited disclosing in a dishwasher (col. 4, line 22-23) a sound attenuator comprising a sound barrier element and a sound absorbing element, the sound attenuator substantially closing the motor cavity opening and extending along a bottom portion of the motor cavity to attenuate the sound emanated from the motor cavity, the sound attenuator having at least one side portion extending along at least a portion of motor cavity sides. It therefore would have been obvious to one having ordinary skill in the art to modify the arrangement of Nelson, to include a sound barrier as taught by Herreman, for the purpose of completely enclosing the motor cavity. . Re claims 2-7, to have the sound attenuator to be as claimed is deemed to be of little patentable weight in view of the corresponding features in the applied prior art. This is also applicable to the subject matter of claims 17-24.

3. Claims 8-15 stand allowed.

4. Applicant's arguments with respect to the pending claims have been considered but are moot in view of the new ground(s) of rejection.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to FRANKIE L. STINSON whose telephone number is (571) 272-1308. The examiner can normally be reached on M-F from 5:30 am to 2:00 pm and some Saturdays from approximately 5:30 am to 11:30 am.
